Ayisha Chandni (BA, ACLP, AMANI, CVD, CIM, ICBD, IYCF)

Hi! I'm Ayisha Chandni — your go-to person for all things motherhood. For over 5 years, I've empowered 3000+ women, helping them turn worries into confidence and exhaustion into empowerment.

My journey began when I realised mothers needed more than medical care — they needed *connection, reassurance, and someone in their corner*. That led me to train in **birth doula support, lactation consulting, childbirth education, postpartum recovery, mindful motherhood, and more**.
